Tray Sealer
Portion-to-Pack

Model 2380 Tray Feeder (as shown)
- For high volume tray feeding to Denester.

MODEL 1120 Portion-To-Pack With Denester (as shown)
- Used in conjunction with Stuffers and ground beef/poultry Portioners for automatic loading of product into trays;
- Ideal for automated ground beef and ground poultry applications;
- Runs either clockwise or counterclockwise to meet your product line requirements;
- Vacuum assisted Denester.

Model 1250 Tray Denester With Indexing Conveyor (not shown)
- Used in conjunction with Formers, Combination Scales, and Depositors for automatic loading of product into trays;
- Ideal for automated patty applications;
- Ideal for automated sauce, cubes, nuggets, and other filling applications for prepared foods (BBQ, chili, mashed potatoes, cheese spreads);
- Vacuum assisted Denester.

‘S’ Series
- Seal Integrity – Time, Temperature, and Pressure are all monitored and controlled to provide consistent seals you can depend upon.
- Sanitation – Stainless Steel Washdown Design;
- Speed – Servo Drive Indexing System;
- Savings – Contoured filler plates for optimum gas usage and unique film cradle design to minimize film waste.
- Solid – Heavy Duty Construction Design, Including Center-Die Closing System;
- Serviceability – Full-color, user-friendly, programmable touch screen control with multi-language support. Fast, easy change-over design for converting from one package size to the next.
