WHY SHOULD ATTENDEES VISIT YOUR BOOTH AT IPPE?

Visit our booth to see how the QMS Semi Automatic tying machine can save on labor, increase production, reduce cost and improve health and safett. Eliminates the need to tie birds by hand.

QUICKDRAFT INC.

330-477-4574
www.quickdraft.com

BOOTH # C33175

WHAT WILL YOUR COMPANY BE HIGHLIGHTING AT IPPE?

Quickdraft's Demister XL exhaust filtration system keeps your fryer room free of smoke by providing consistent exhaust throughout the production day, while keeping your roof free of grease and breading.

WHY SHOULD ATTENDEES VISIT YOUR BOOTH AT IPPE?

The Demister XL uses change in exhaust flow direction, water sprays and cleanable filters to remove grease and breading from the exhaust flow. Our water recirculation feature reduces water consumption while our water sprays keep filter material clean throughout the production day. Control logic incorporated in the system keeps it working at optimum efficiency by ensuring proper water flow and periodic cleansing of grease and particulate.

Quickdraft® Conveying/Exhaust Systems

REISER

781-821-1290
www.reiser.com

BOOTH # C35159

WHAT WILL YOUR COMPANY BE HIGHLIGHTING AT IPPE?

Reiser will feature live demonstrations of their full line of meat, poultry and sausage processing and packaging equipment. Reiser will showcase their Vemag MMP223 Ground Meat Forming system. The Vemag MMP223 automates production of portioned ground meat. Reiser will also demonstrate their DJM VacForm food formers. The highly versatile VacForm provides multi-lane production of burgers, nuggets, sticks, and more with superior weight accuracy across all lanes. Reiser will also showcase their wide range of packaging equipment and solutions: Reiser form/fill/seal packaging machines, Ross tray sealers, Supervac vacuum packaging, and Fabbri stretch wrappers.

WHY SHOULD ATTENDEES VISIT YOUR BOOTH AT IPPE?

The Reiser team will be available to answer questions, demonstrate equipment,and help processors with their applications.
